Name: Nishant Mishra

Faculty: UT-MC

has successfully participated in

Designing a lesson and a course

Year: 2021

Study load: 14 hours (0.5 EC)

Date: 30 November & 7, 14, 21 December

A.H. Assink, MSc

Course coordinator

Nishant Mishra

participated in the following course

Designing a lesson and a course

Course description

The course on (re)designing a lesson and a course is for most beginning teachers the starting point for working at their University Teaching Qualification. Designing education can be seen as a complex process with a lot of related and interacting concepts, views, and opinions.

The course provides online webinars (4 x 4 hours), guided tutorials (3 x 1 hours), self-study, small activities and assignments for in total a study load of 14 hours.

Certificate

The certificate of participation is awarded for:

- 100% active participation in the online webinars and guided tutorials,
- hand-in all 4 assignments.

Learning outcomes

After this course, the participant is able to start designing a course in a systematic and creative way taking into account all relevant educational design aspects leading to an effective, efficient, and activating design focused on student learning.

Topics

- ADDIE framework
- analysis of context, learning outcomes and starting situation,
- well-balanced and varied subject matter within the curriculum,
- structured design,
- constructive alignment,
- activating pedagogical methods
- the pedagogical principles, learning themes, academic context, and (own) research,
- the curricular aspects (macro-level) of a degree programme (lesson – course – degree programme),
- final qualifications/competencies,
- learning themes,
- assessment design,
- institute and faculty vision, rules and regulations.
